ABOUT

A highly motivated and dynamic final-year Computer Science student, I possess a strong passion for innovation, problem-solving, and technology-driven solutions. I have successfully executed both academic and practical projects that showcase my technical and analytical abilities. Proficient in Python, Data Science, Machine Learning, and Data Visualization, I have hands-on experience in creating data-driven applications and producing insightful visual reports. I am eager to leverage my knowledge in a challenging role that fosters learning, creativity, and a meaningful impact in the real world.
